Family Archive Scans (page 1 of 2)

Save those family photos before they fade away!

Do you have shoe boxes and drawers stuffed full with memories; literally hundreds, if not thousands of old photo prints, slides and negatives just collecting dust? Wouldn't you love to get them organized, share them with family & friends and preserve these treasures for generations to come?

...Well, we're going to make that job easy—so let's get to it!

For starters, gather up all those old photos and bring or mail them in. With our high speed scanners we will digitize your entire collection and save it to CD or USB thumb drive. You can make additional copies for family & relatives, order 4x6 prints or an index booklet. We can upload your images to a private Online Gallery where you can share them, order enlargements, design books, cards, calendars and more. If you discover a particularly cherished image that needs restoration—we can do that too!

Family Archive Scan Packages				
	Prints	Negatives	Slides	Turn-around
50 photos	\$59	\$69	\$75	3 days
100 photos	\$99	\$112	\$125	7 Days
250 photos	\$185	\$220	\$250	
500 photos	\$260	\$310	\$375	14 days
1000 photos	\$400	\$450	\$500	

Includes:

- Scanning
- Image rotation
- Auto Color adjustment
- CD Burn
- Free upload to Private Online Gallery*

- Prints, slides and negatives can not be combined for quantity pricing. Each is a separate service.
- Quantities over the set packages will be pro-rated at the quantity unit price.

* **Free upload to private Online Gallery:** We will upload the scans to your very own password protected web gallery and then provide an email link so you can access the site. It's part of our OnlinePhotoCenter; it's safe, secure and fun. Share pictures with family & friends, order enlargements, design books, cards, calendars, and more....

Options & Extras:

- **USB Thumb Drive instead of CD:** add \$10.00
- **Additional CD's:** \$7.50 ea.
- **Additional USB Thumb Drives:** \$17.50 ea.
- **USB Presentation Case:** A great gift idea - See separate page in this price list.

Family Archive Scans (page 2 of 2)

Prints	Slides		
<p>Size Guidelines: Prints 2½x3½ up to 8.5x11</p> <p>How to Organize: All prints must be loose, removed from albums and unmounted. Please sort and stack with the largest on the bottom to smallest on the top.</p> <p>The following will not feed through the high-speed scanner – tape, glue, staples, fragile, torn or bent prints, very warped prints, and old Polaroid's.</p> <p>Want scans in a specific order? - add \$.12 ea Number the back of each print with a pencil and stack in order.</p> <p>Flatbed Scan Option: Originals too small, too large or too fragile for the shoe box scanner can be flatbed scanned for \$2.95 ea. (11x17 is the maximum flatbed scan size)</p> <p>Note: This service is not limited to just photo prints. Customers have brought in newspaper clippings, marriage certificates, diplomas, children's drawings, property deeds, and every other kind of keepsake to be digitized along with the rest of their collection.</p> <p>Scan Resolution: 300 dpi at original print size</p>	<p>Size Guidelines: 35mm color or b&w</p> <p>How to Organize: Arrange slides in the correct viewing direction and put in stacks of approximately 50 each. Secure the stacks with rubber bands. Slides carousels will also work fine.</p> <p>Want scans in a specific order? - add \$.12 ea Number each slide on the front and stack in order.</p> <p>Scan Resolution: 4x6 at 300 dpi</p> <tr> <th data-bbox="823 804 1474 858">Negatives</th> </tr> <td data-bbox="823 863 1474 1270"> <p>Size Guidelines: 35mm color or b&w Full strips only (3 frame minimum). All negs on each strip will be scanned</p> <p>How to organize: Separate color from b&w negatives and stack in piles. Try to handle by the film edge. Put in envelopes or ziploc bags.</p> <p>Want scans in a specific order? - add \$.12 ea Use a marker to number each strip in the clear sprocket area (don't mark on the image) and stack in order.</p> <p>Scan Resolution: 4x6 at 300 dpi</p> </td>	Negatives	<p>Size Guidelines: 35mm color or b&w Full strips only (3 frame minimum). Negatives			
<p>Need to keep the photos separated in groups? That's a reasonable request. After all, photos may need to go back into certain albums or perhaps some are borrowed from family or relatives. Use boxes, envelopes or ziploc bags to organize your originals and we will keep them separate.</p>			
<p>Odd size originals that don't conform with the specifications of this service? We are a full service professional lab and we can scan almost anything. Whether it be our custom film scans, flatbed scans, or digital capture services, we will get the job done.</p>			
<p>Photo Restoration: Now that you are sorting through all your old photos, you're bound to come across some one-of-a-kind treasures that need a little TLC. We can restore those damaged, torn and faded pictures. Please see the "Restorations" section of our price list for more information.</p>			
<p>About Scan Resolution: Our Family Archive Scans will look great on your computer and just as good on a 60 inch flat screen TV. They will easily enlarge to 5x7 or 8x10 prints. If there are certain photos that you want to print larger, then we suggest that just those originals be scanned at a higher resolution with our custom scanning service.</p>
